

# PROPAK ASIA

12-15 JUNE 2024  
BITEC | Bangkok, Thailand

Sustainable Event

Join Us

The 31<sup>st</sup> International Processing and Packaging Exhibition for Asia

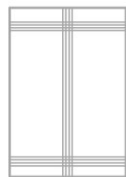

## Show Presentation

We look forward seeing you at : Booth no. J37 Hall 98

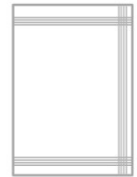

## Quattro pack machine: TWQ

- Versatile VFFS with small footprint and stable operation.
- Capable speed 100 bags/min.

Pillow bag

3-sided seal bag

Quattro-pack

## Auger Filling Machine : FRJB

- Self-standing auger filler can be operated either by touch panel or foot switch.
- The demonstrated FRJB is equipped with degassing device that vacuums the air contained in the powder out of filler for preventing late-dropping of powder and reducing the powder dust.

with degassing

without degassing

### Filling test in Tam laboratory

Tam recommends filling test for confirming the powder nature and the required specification would fit with the filling machine. Please contact us.
